CHILDREN AND FAMILY SERVICES

Children, Youth and Family Services (CYFS) – Provides crisis services and investigates all child abuse and neglect allegations within Venango County. The agency also delivers ongoing case management services to all families open for services, and offers independent living services to qualified youth. CYFS actively recruits and maintains licensed resource families for children when placement is necessary. Venango County Children and Youth case management services conduct home visits, assess the safety of children, and refer children/family to appropriate services within the community while striving to achieve safety and permanency for all children. **814-432-9100**

Early Intervention Services – Early Intervention provides support and services to infants and toddlers from birth to age three who have special needs due to developmental delays or disabilities. If a child has a medical diagnosis that puts him/her at risk for developmental delays or if a delay of at least 25% (-1.5 standard deviation) is exhibited in one or more of five developmental areas, Early Intervention services can begin to support the child's development. The five areas of development that are assessed include: physical, communication, cognitive, adaptive, and social-emotional skills.
